Bio

DMNG is a producer and DJ from Lille, France, making House music shaped by years of hip-hop and Europe's clubs.

Hailing from Lille, France, DMNG spent years navigating the hip-hop scene while scouring the clubs of Europe, from London to Paris via Amsterdam and Brussels, as a devoted House music fan.

A producer for more than a decade, he long worked for other artists and collaborated behind the scenes; some of them have since become headliners. Today he channels the worlds that shaped him into a sound of his own: House music at the crossroads of his influences.

Since 2022 he has been releasing music under his own name, independently and through selected labels, notably Parisian imprint ItinéraireBis Records. His latest release, the *Dust Devils EP* (summer 2026), draws on contemporary tech house blended with the raw energy of 90s House and Techno. More singles and EPs will follow at a steady pace.

Resident at Nox Club in Lille, he has also played Magazine Club, London (Night Tales, Basing House, Number90), Marrakech (L'Envers) and the Paris 2024 Olympics with Patate Douce. He now runs his own label, 7ORTUNE SOUND, and is preparing Good 7ortune Radio, a show set to launch in 2027.
